A NOTE FROM OUR TEAM

# Bluffton grew at the top.

Between July and September, 641 homes sold across Bluffton General, Sun City, and the 11 plantation and lake communities this report covers, 6.8% more than in Q3 2025, for $492M in volume, up 10.7%. The top of the market carried that gain. Sales of $2M or more rose to 41 from 23 a year earlier, and Palmetto Bluff closed 29 homes at an average of $2,742,905, including the sale of the quarter, 70 Mount Pelia Road, at $6,175,000. Spring Island added two closings above $4.4M.

The middle of the market went the other way. The median sale fell 5.3% to $529,950. Sun City and Riverbend recorded 184 sales against 198, and the average sale there dropped 10.5% to $499,586. Bluffton General matched last year at 271 sales, and the newer neighborhoods grew: New Riverside closed 63 homes against 30, Hampton Lake 30 against 14, and Hilton Head Lakes 30 against 13. Colleton River slowed to five sales from 15.

Against Q2 2026, the quarter was slower. Closings fell 7.5% from 693, and the average sale fell from $842,808 to $767,022, because Q2 carried 57 sales above $2M, among them $15,000,000 at 393 Old Palmetto Bluff Road. A home took 91 days to sell, against 88 in the spring and 81 a year ago. Sellers received 97.4% of asking price, within two tenths of a point of both earlier periods.

> *Bluffton sellers still got their price this summer. What changed from last year was the wait, about 10 days longer.*
